Veterinary Report

Horse 2024 Out of The Flames (Havana Gold/Out of The Flames), 1yr 7m, bay,
Thoroughbred filly

Owner/Trainer Tweenhills Farm & Stud

This is to certify that I have examined the eyes, the heart at rest and auscultated the lungs of the filly described above.

The above filly will intermittently be observed to strain to pass faeces. This is because of presumed nerve dysfunction to the rectum which occurred following repeat enemas to resolve a sand impaction as a foal. The filly has been managed as normal throughout sales prep (long forage, stud mix) without problems. It is not anticipated that this should affect her ability to be trained and raced.
